

24-7 Fire offers a dynamic, visual learning experience for firefighters, fire inspectors, and fire officer development. The programs are technically correct, NFPA compliant and based on OSHA, NIOSH, CDC, and IFSTA materials, and other recognized standards and materials. With 24-7 Fire, delivered in the CentreLearn Learning Content Management System, you have total control over your training. The lessons are easy to use, implement, and track. Facilitator led classroom or self-paced online options mean training when you want it, where you want it. The scenario-based videos, fire service expert interviews, and skill demonstrations used throughout these programs will have your team ready for any challenge. Use 24-7 Fire titles alone, paired with other CentreLearn lessons or classroom materials, hands-on exercises, or in combination with your own uploaded content – the choice is yours.

### Firefighter:

F4.09.1 Water Supply & Tender Operations  
 F4.09.2 Ground Ladders  
 F4.09.3 Positive Pressure Ventilation  
 F1.10.1 Cold Weather Operations  
 F1.10.2 NFIRS & Documentation  
 F1.10.3 Overview of Aerial Operations  
 F2.10.1 Introduction to NIMS ICS  
 F2.10.2 Driver Operations  
 F2.10.3 Basic Pump Operations  
 F3.10.1 Basic Fire Streams  
 F3.10.2 Introduction to the Wildland Urban Interface  
 F3.10.3 Introduction to Forcible Entry  
 F4.10.1 Safety: Rapid Intervention Crews  
 F4.10.2 HazMat Operations Update  
 F4.10.3 Building Construction Awareness  
 F1.11.1 Safety Respiratory Protection & SCBA  
 F1.11.2 Search Operations Building Fires  
 F1.11.3 Extrication Update: Newer and Hybrid Vehicles  
 F2.11.1 Safety: Water Emergencies  
 F2.11.2 Safety: Responding to Violence  
 F2.11.3 Safety: Firefighter Fitness Basics  
 F3.11.1 Safety on the Fireground  
 F3.11.2 Basics of High-rise Firefighting  
 F3.11.3 Fireground Hydraulics: Basic Concepts  
 F4.11.1 Hydrogen Sulfide Suicide Awareness  
 F4.11.2 Vertical Ventilation Pitched Roof  
 F4.11.3 Home Safety Surveys  
 F1.12.1 Firefighter Rehab  
 F1.12.2 Breaching Masonry Walls Basics  
 F1.12.3 Elevator Safety Response Awareness  
 F3.12.1 Care & Maintenance of Forcible Entry Tools  
 F3.12.2 Search & Rescue  
 F3.12.3 Utilities Shutoff  
 F1.13.1 Exterior Class A Fires  
 F2.13.1 Interior Structure Fires  
 F2.13.2 Scene Lighting

### Firefighter:

F3.13.1 Hazardous Materials Identification  
 F3.13.2 Basic Fireground Communications  
 F3.13.3 Basic Hoisting Operations  
 F4.13.1 Vehicle Fires  
 F4.13.2 Portable Fire Extinguishers

### Officer Development:

O4.09.6 Managing the Difficult Employee  
 O1.10.6 Basic Documentation for the Officer  
 O2.10.6 Best Practices: Customer Relations  
 O3.10.6 Ethical Issues  
 O4.10.6 Time Management  
 O1.11.6 Handling Personnel Issues  
 O2.11.6 Handling Conflicts  
 O3.11.6 Professional Development  
 O4.11.6 Leadership Styles  
 O1.12.6 Budgeting Basics  
 O1.13.6 Cultural Awareness

### Fire Inspector:

I4.09.4 Workplace Violence  
 I4.09.5 Suppression Systems: Wet & Dry  
 I1.10.4 Introduction to Report Writing  
 I1.10.5 Fire Alarm Systems: Introduction  
 I2.10.4 Introduction to NIMS-ICS: Fire Inspector  
 I2.10.5 Customer Service  
 I3.10.4 Inspection Techniques  
 I3.10.5 Interpreting Model Fire Codes  
 I4.10.4 Building Construction  
 I4.10.5 Hazardous Material for the Fire Inspector  
 I1.11.4 Respiratory Protection  
 I1.11.5 Identifying Hazards During Inspections  
 I3.12.4 Hydrant Inspection & Testing  
 I1.13.4 Electrical Systems
